About Me

I am a full-stack developer, with a passion for building web applications. I have a strong background in Python, Django, and JavaScript. I am also familiar with HTML, CSS, and Bootstrap. I am currently working on a project that uses Django and PostgreSQL. I am also familiar with the Django REST framework.

Am also a fast learner and adapt faster to changes/trends in technology. Am easy to work with as I am a self driven individual.

Education

Bsc. Information Technology
